Q: Jasmin comments, "this is my first time getting season passes. Along with my passes came free guest passes. I noticed that none of the dates available are for the month of July. Is this correct? Does anyone know why guests can't come in July? I have family coming from out of state and was really looking forward to bringing them then."

A. Generally, July is a peak month for attendance at the park and in the Branson area. The Bring-A-Friend passes for Silver Dollar City are intended to encourage season passholders to bring guests when the park is less crowded to ensure a pleasant experience with the services and entertainment offerings of the park. As a season passholder, you may provide your family members with a \$5.00 discount per ticket for up to 6 guests. Hopefully this savings and the discounts on food will provide some assistance to the wallet.

One other idea for you--If your schedule allows, consider entering the park after 3 PM. This will allow your guests to come back free the next day. The park is also a little less congested in the late afternoon as are the Branson roads leading to the park's parking lots.
